

Jean-Luc Khalfaoui, *European Research Council Executive Agency,*
Belgium

Dr. Jean-Luc Khalfaoui is Research Programme Officer at the European Research Council (ERC). He is in charge of the scientific domain of Applied Life Sciences and Non-Medical Biotechnology and the related panels --called LS9 Panels-- which select top researchers in that domain who will be supported by the ERC. This domain covers a number of very diverse research areas. Among them are Biotechnology, Applied plant and animal sciences; Food sciences; Forestry; Industrial, environmental and non-medical biotechnologies; Bioengineering; Synthetic and chemical biology; Biomimetics; Bioremediation. The ERC grantees are at the different levels of career from young to senior researchers.
